

(#3) Don't ~~you~~ want produce 2 viruses
in some lab.

HT cells. in the virologic agent
that's the virus that is going
to be. pay on lecture
everywhere.

Sequence data¹ or enough ones
- some.

Medical Tribune would publish or
major political article if I wanted.
I don't care about the fronts

If you care, that's your problem.

I have some cloned foug ASD
waiting for the foug

I sent Ant-bodies to foug's
they don't have Ant-bodies

I'll pay foug virologist

#4

They work in lab they are always
lecturing all the time.

*5

done - done comparisons

Don
I told Ueno, Anton + Peter not to
push CEC for blood specimens.

End that kind of thing.

You are the only one who lab
confirmed HT except Max
I proved it, they did not
the French.
I referenced the French paper.

When they published their paper
in 1983 why didn't they
compare to HTU-I and II

You guys deal with Mahal Tucker
all the time I don't. That's
harsh.
I won GM, LASKER etc etc
because I'm honest

#6

I am not trying to say that B
was the first to isolate
the cause of AIDS.

press conference

↓
first to
cut into

we started field -

we finished ARK

*6

we were the first to find cause

*7

Nov 82 - 1 isolate,
Feb 83 - 4 more

"You Dr created the problem"
we are waiting for the clone"

"They first identified the virus"

Washington Society - Regan's Read

*6

"If anyone asks who first identifies
the virus I say, the French"

"I didn't appreciate the morphology"

I didn't ask for the press conference.

"write up papers + went to Europe"

told Regan

"Round one I'll get attention"

You will get round 2

▷ BFC broke (took manuscripts)

↳ break trip (Eisingarten) → papers to Brandt

* Brandt "do you believe it causes AIDS"

Bravard - I must make announcement

Bob - don't

Don't - don't

Because of Blood banks - now
we have to make announcement

↳ Back to Europe

↳ Saw headlines NYT

↳ Editorial "NYT"

↓
"day of no comment"

↓
"feels hurt"

"We all lost"

~~look~~ - English "looks like

an ~~patience~~ ^{an ~~patience~~}

"Month before Gallo paper killed
called saying that no one
believes French, Bob defended

↳ Senegal (Roswell park) did general
much damage

We don't win fast - like CPC
- different system

"I caused you some trouble
we were"

"No more"

"We have serious data"

"If I had of waited and mass produced
then I would have been told
I ~~would~~ have got cross contamination"

for ^(IP) how a bad name was
used to: CRC rules

temperature: - French →

probe to IOTI

use it to

compare NIA - P24/25

"We have been in this cell
- you now have the line"
Nothing else in it -

"BO line - loaded - special monkey virus
- told him (Montgomery) piece

"Cloning better"

Denay

Sent normal cell sequence

3/16/92
